

Amendment Proposition No 7

6. AMENDMENT: To provide for creation of a designation of an International Style to enhance the Status of the Profession.

It is considered necessary for the Institution to reflect an International Outreach and create a grade of Professional Engineers at par with Chartered Engineers of the UK or Professional Engineers of other professional bodies, and subsequently to establish a Mauritius Section of the International Register of Professional Engineers.

	EXISTING		PROPOSED (New Text Re-Professional Engineers)
3.3.0	NEW	3.3.0	Professional Engineers (IEM)
3.3.1	NEW	3.3.1	Council shall establish a Register of Professional Engineers on which it shall enter the names and qualifications of such members of the Institution of the Grade of Members (MIEM) and Fellows (FIEM) whose registration as such has been approved by the Council subject to their satisfying the criteria approved for the same; such members shall be eligible to designate themselves as Professional Engineer (IEM), and use the abbreviation of PEng (IEM) after their name. Council shall prescribe the Application Form and the criteria for registration as Professional Engineers, which shall include the following:
3.3.2	New	3.3.2	Applicants to hold a valid IEM membership and are not in arrears of payment of their subscription by more than 12 months, and have not forfeited their membership.
3.3.3	New	3.3.3	They are not under notice of an intention to institute disciplinary proceedings against them for either professional misconduct, negligence or incompetence.
3.3.4	New	3.3.4	They are duly registered as a Registered Professional Engineers with the Council of Registered Professional Engineers Mauritius and their registration is not overdue by more than twelve months.
3.3.5	New	3.3.5	They submit, for the records of the Institution, an updated CV along with their APPLICATION FORM for PEng
3.3.6	New	3.3.6	Fellow Members or any member holding registration as Chartered Engineer with the Engineering Council UK, or registered as a Professional Engineer with a Professional Engineering Institution recognised by the Council need not submit documentary evidence for the statements in their Application Form and updated CV, but shall duly acknowledge the factual accuracy of information contained in their application and CV by their signature thereon.
3.3.7	New	3.3.7	Applicants of the Member Class shall submit evidence of 5 years post registration experience, which shall include at least two years where they held higher responsibility for a major engineering project or component thereof, in accordance with the requirements that Council may approve and prescribe pursuant to these provisions.
3.3.8	New	3.3.8	The Rules of Conduct and Discipline for members of the Institution shall apply to Professional Engineers.
3.3.9	New	3.3.9	Council may prescribe the conditions governing the registration and renewal fees as well as the period of validity of the registration, but non-payment of any fees under this provision shall not affect their Right of Vote or membership of the Institution or any other right or privilege under the Rules of the Institution other than restriction from use of the designation to which it relates..
